The State Telephone System (STS) is designed for business calls only. Telephone tariffs and tax laws prohibit use for personal calls; even if the people placing the calls reimburse the state. Employees who find it necessary to make long distance calls during working hours may place collect calls or credit card calls, bill calls to their home telephone, or use public telephones located in most office buildings.

Office of the Chancellor (L)

David Wilson, Chancellor... (608) 262-3786
